

## corner store

she's got it all  
she's like a *corner store*  
nice to have around  
she's just around the corner from me  
there's nothing that I need  
there's something I want

she's the kind that I like  
so I get on my bike  
i'm in my favourite clothes  
i must be getting close  
metres away  
it feels like miles  
i'd pedal all day for a bag of her smiles

a little change  
just a little change  
expect a little change from your *corner store*

it's not very likely  
i just thought that I'd see  
if maybe she'd like a bottle of me

she's got it all  
she's like a *corner store*  
why be sad by myself?  
when I'd be happy on her shelf  
I don't want no winfield blue  
just a packet of you
