

life is not a race

running is faster than walking
unless you're running the wrong way
saying nothing is better than talking
when you've got bad words to say

take it slow go your own pace
don't you know *life is not a race*

success is not a dollar sign
stress is not a friend with whom i spend much time
i spent the whole day in the sun
you just drove around pretending you got things done

was there anything you missed on your to-do list?
did you take the time to make it all rhyme
if you didn't get around to all that you wrote down
tomorrow is another today
don't you know *life is not a race?*

if i sleep all day
i will be ok
i'll wake to find
i'm only one day behind
there's no first prize, there's no last place
don't you know *life is not a race?*

running is faster than walking
unless you're running the wrong way
